

# ADAM BY PIUSI PUMP KIT 240V AC 60LPM DT6Z04AAUSM61

DT6Z04AAUSM61

## FLUID COMPATIBILITY

Diesel

Complete 240V diesel transfer kit with 70 L/min vane pump, 3-digit mechanical meter, auto nozzle, and particulate/water filter. Self-priming design for drum or tank dispensing.

## FEATURES

- Flow rate 70 L/min
- 240V AC single phase operation
- 1" BSP connection
- Stainless steel and acetal construction
- Self-priming vane pump
- FT60MA particulate and water filter included
- 3-digit mechanical totaliser
- Auto shut-off nozzle

## BENEFITS

- Everything in the box, ready to dispense
- Filter catches water and debris before the meter
- Auto nozzle stops flow when tank's full
- Draws direct from 205L drums or bulk storage
- Meter tracks fuel issued per fill

## TECHNICAL SPECIFICATIONS

Flow Rate	70 L/min
Voltage	115V
Connection	1" BSP
Weight	35 kg
Hose	6m x 19mm ID delivery hose
Material	Stainless Steel

Materials	Stainless steel and acetal construction
Filter	FT60MA particulate and water separator included
Meter	3-digit mechanical totaliser
Nozzle	Auto shut-off type
Self	priming - Draws from drums or tanks

## USE CASE & APPLICATION

- Workshop diesel dispensing
- Light commercial refuelling
- Drum-to-vehicle transfers
- Small fleet operations
- Generator and equipment top-ups
