

ADAM BY PIUSI PUMP KIT 240V AC 60LPM DT6Z04AAUSM61

DT6Z04AAUSM61

FLUID COMPATIBILITY

Diesel

Complete 240V diesel transfer kit with 70 L/min vane pump, mechanical meter with 8-digit totaliser, auto nozzle, and particulate/water filter. Self-priming design for drum or tank dispensing.

FEATURES

- Flow rate 70 L/min
- 240V AC single phase operation
- 1" BSP connection
- Cast iron body and acetal vanes
- Self-priming vane pump
- Particulate and water filter included
- Mechanical meter with 8-digit totaliser
- Auto shut-off nozzle

BENEFITS

- Everything in the box, ready to dispense
- Filter catches water and debris before the meter
- Auto nozzle stops flow when tank's full
- Draws direct from 205L drums or bulk storage
- Meter tracks fuel issued per fill

TECHNICAL SPECIFICATIONS

Flow Rate	70 L/min
Voltage	240V AC
Connection	1" BSP
Material	Cast iron pump body, sintered steel impeller
Materials	Acetal (POM) vanes, HNBR ring, NBR gaskets

Filter	Particulate and water filter included
Meter	Mechanical, resettable partial + 8-digit totaliser
Nozzle	Auto shut-off type
Self-priming	Draws from drums or tanks

USE CASE & APPLICATION

- Workshop diesel dispensing
- Light commercial refuelling
- Drum-to-vehicle transfers
- Small fleet operations
- Generator and equipment top-ups
