

PIUSI PIPE GUIDE + DRIP COLLECTOR/IBC KIT F02200210

F02200210

Stainless steel drip tray for IBC fuel dispensing. Catches spills and drips during nozzle holstering. 5kg construction sits stable under bulk containers.

FEATURES

- Stainless steel construction
- Weight 5kg
- Catches fuel drips during nozzle holstering
- Resists diesel and petrol corrosion
- Low-profile design for IBC dispensing
- Stable placement on uneven surfaces

BENEFITS

- Keeps work area cleaner between fills
- No rust or degradation from fuel contact
- Heavy enough to stay put during hose movement
- Fits under existing IBC fuel setups

TECHNICAL SPECIFICATIONS

Weight	5 kg	Durability	Resists corrosion from diesel and petrol contact
Material	Stainless Steel	Footprint	Low-profile design fits under standard IBC setups
Application	IBC fuel dispensing		
Function	Catches drips during nozzle holstering		

USE CASE & APPLICATION

- IBC diesel dispensing
- Bulk fuel storage yards
- Workshop refuelling stations
- Construction site fuel depots
